

FAIRS

We have had four fairs this week—Monday at Tarbert, Tuesday, at Miltown, and Wednesday, at Castleisland and Listowel. They were all equally encouraging to the farmer, the demand being brisk and prices high for every species of stock.—*Kerry Examiner.*

The fair of Roscrea, on Monday last, was well supplied with stock and purchasers. Milch cows, fat and store cattle, brought very high prices; and all young and in good condition sold, sheep were in greater demand, and brought higher prices than for several years back, old cows for feeding sold at prices the same as at late fairs in this neighbourhood; young heifers sold at from 15s to 20s dearer than for the last six months.

BALLYRACGET —This fair came off on last Monday, and was but indifferently attended. There were some very good springers and now milch cows, which sold freely at from 10l to 14l each. Heifers and bullocks sold at an average price of 8l.

PHILLIPSTOWN.—There was a good supply of stock of all kinds at this fair on last Wednesday, which sold well.

At the fair of Abbey held this week the prices and demand for stock were fully maintained. Wool on the advance, price in this town, 14s. 6d. per stone.—*Athlon Herald.*
